I. Call to Order and Welcome – Rebecca Brumagin, Mina Town Supervisor
Supervisor Brumagin opened the public hearing at 11:15 am and welcomed everyone. She thanked everyone for attending and noted that she and the town board were pleased to have such a great turnout. She reviewed the rules for the public hearing including:

- there would be no comments or questions during the presentations,
- that during the public comment portion of the agenda, each person who would like to speak would be given 3 minutes,
- anyone who would like to speak a second time would be given an additional 3 minutes after everyone else has had the opportunity to speak,
- that the public comment period would be extended for 10 days to allow for written comments by mail, email to the town supervisor, or to be given directly to the town clerk during her normal business hours.

II. Reading of Legal Notice – Sherrie Tanner, Mina Town Clerk

Town Clerk Tanner read the legal notice which was published within the required timelines in the Jamestown Post Journal, the Town of Mina’s official newspaper.

III. Brief History of Project – Rebecca Brumagin

Supervisor Brumagin provided a brief history of the project which has been worked on over the past 15 years and she shared some highlights including the fact that:

- the results of a survey of Town property owners and residents was used to update the town’s 2006 comprehensive plan and included recommendations regarding the quality of the lake and assessment of sewerage options,
- various studies have been conducted on the state of Findley Lake,
- various options have been considered for sewerage including: tank pumping schedule, septic system inspection system, bringing all systems to current standards, cluster systems, and a centralized sewer system as well the option of utilizing the Village of Sherman’s waste water treatment facility for the Findley Lake project and Sherman.
- the Town has received a hardship designation from New York State making the town eligible for 0% interest for 30 years,
- the Town plans to apply for grant funding to bring down capital and operational costs but cannot apply for potential grants until a sewer district has been formed.

IV. State of Findley Lake – Ed Mulkearn and Bill Boria

Bill Boria and Ed Mulkearn discussed the impairment of Findley Lake and the various studies that have been conducted over the past 15 years.

V. Chautauqua County Health Department Mandatory Septic Inspection System – Mark Stow and Bill Boria
Mark Stow and Bill Boria discussed the Chautauqua County Health Department’s Mandatory Septic Inspection Program that went into effect on January 1, 2016. It applies to all septic systems within 250 feet of any of the county’s lakes. The health department has been monitoring progress on the formation of a sewer district at Findley Lake. If the sewer district does not move forward, the health department will immediately begin inspecting onsite waste water treatment systems at Findley Lake.

VI. Formation of a Sewer District – Neil Robinson, Attorney

Attorney Robinson discussed the legal process for the formation of the sewer district including the fact that the formation of the district is subject to a permissive referendum. If the town board votes in favor of forming the district, property owners in the district can petition the town to have the property owners in the district vote on the formation. He described the process required by law.

VII. Map, Plan and Report – Clay Fails and Tim Wells, Greenman-Pedersen, Inc.

The engineers reviewed the sewer district map and discussed elements of the report including the capital and operational costs.

VIII. Funding/Grant Opportunities – Mary Chappell, Municipal Solutions

Ms. Chappell provided information regarding the process that needs to be followed to apply for grants and reiterated that the Town may not apply for grants until a sewer district has been formed. She shared information on a number of the grants which she will pursue if the sewer district is formed. Those grants, if awarded, would reduce the annual costs to the property owners.

IX. Public Comment

Supervisor Brumagin gave the public the opportunity to speak. She reviewed the rules including each person who spoke would be given three minutes and after everyone has had the opportunity to speak, people would be given the opportunity speak a second time for three minutes. She also shared that the public comment portion of the public hearing would be held open for ten days to give the public the opportunity to submit comments in writing.

A number of people made comments about the project or asked questions. The majority of the questions fell into the following categories:

• Quality of the lake – phosphorous level, impact of weed harvesting, lake bottom quality/muck
• Chautauqua County Department of Health’s Mandatory Septic Inspection System – how quickly put into effect
• The cost of the project – NYS Comptroller approval
• Allocation of costs – full time vs seasonal residents, businesses
A number of people acknowledged the work done by the Town Board and the Sewerage Options Workgroup and expressed their appreciation.

X. Adjournment

Supervisor Brumagin thanked the public for their input and shared that the Town Board would give due consideration to the comments and questions presented. She adjourned the hearing at 2:30 pm with the exception of the public comment section stating that it would be held open for the purpose of accepting written comments from the public for an additional 10 days.

I. Supervisor Brumagin called the meeting to order at 9:02 a.m.

Supervisor Brumagin explained that the verbal comments portion of the Public Hearing was closed at the meeting on the 21st of January but the public was given an additional 10 days to provide written comments. Supervisor Brumagin stated the board would possibly be taking action on a draft resolution which included recommendations from Attorney Neil Robinson. The Town Board could also be taking action on bond counsel.

The Town Board and Ed Mulkearn, President of the FL Watershed Foundation and member of the town’s Sewerage Options Committee along with Clay Fails, engineer from GPI Greenman-Pedersen reviewed the written comments and responses that Mr. Fails prepared.

Supervisor Brumagin then reviewed a draft resolution and order for the formation of the Findley Lake Sewer District. Discussion was held by the town board.

Councilman Luce made a motion seconded by Councilman Wilcox to adopt resolution #7-17.

Resolution #7-17

Town of Mina

Formation of Findley Lake Sewer District

STATE OF NEW YORK

TOWN OF MINA : COUNTY OF CHAUTAUQUA

In the Matter of the Establishment of the Findley Lake Sewer District

RESOLUTION

AND ORDER

At a meeting of the Town Board held at the Mina-Findley Lake Community Center, 2883 North Road, in the Town of Mina, Chautauqua County, New York, on the 20th day of February, 2017.

Present: Rebecca N. Brumagin, Supervisor

Dennis Luce, Councilman

Richard Watrous, Councilman

David Wilcox, Councilman
WHEREAS, the Town Board of the Town of Mina updated and adopted its comprehensive plan in 2006 which included the following:

- Property owners (full time and seasonal) as well as other residents of the Town of Mina participated in a town-wide survey conducted by the Town Board and focus groups conducted by Southern Tier West Regional Development Corporation;
- The Town Board developed a plan based upon the responses from the survey and focus groups.
- The Town Board adopted the comprehensive plan after a public hearing which included the following recommendations:
  - “Emphasis should be given to working with the Findley Lake Watershed Foundation to continue the ongoing Lake Management Plan. The lake quality remains a priority for the residents.”
  - “Continued awareness of growing interest in public sewer systems and/or sewerage alternatives”, and

WHEREAS, Findley Lake has a significant positive impact to the quality of life enjoyed by all of the residents of the Town of Mina, not just those taxpayers who own property on the lake:

- Because of the taxpayer base for properties around the lake, the tax burden to all other properties in the town is lessened substantially,
- The lake is an economic draw for the small businesses in the area;
- Public restrooms are vital to the businesses in the downtown area and the Findley Lake Area Chamber of Commerce identified that as a priority leading to the development of an interim solution of building the Water Wheel Overlook Building which houses composting toilets;
- The Zoning Law, updated in 2006, included a business district which expanded beyond Main Street in response to citizens who desired to have their properties in a business district, and

WHEREAS, the Town Board of the Town of Mina has been apprised of and supported various studies of Findley Lake in conjunction with the Findley Lake Watershed Foundation (FLWF) including:

- Chautauqua County’s pursuit of a $15,000 mini-grant that was awarded in 2005 to assess solutions for failing onsite wastewater treatment systems at Findley Lake;
- Chautauqua County Water Quality Task Force distribution of pamphlets in 2006 on issues with groundwater pollution;
- “Sources of Unwanted Nutrients at Findley Lake, NY”, published by Dr. Michael Wilson of SUNY Fredonia in March 2007 and presented at Findley Lake Watershed Foundation annual meeting;
- The studies have been available to the public through public meetings of the Findley Lake Watershed Foundation and are on the Town of Mina’s website, and
WHEREAS, the Town Board of the Town of Mina has been apprised of the results of various studies of Findley Lake, its current level of impairment and hazardous impacts and has implemented a plan to minimize the impacts of:

- Phosphorus levels – primarily from septic systems;
- Nitrate levels – primarily from agriculture runoff;
- Chlorides – primarily from road salt, and

WHEREAS, the Town Board of the Town of Mina formed a Sewerage Options Workgroup to evaluate various sewerage options; in 2008 the group assessed the following and submitted recommendations to the Town Board:

- Tank Pumping Schedule;
- Septic System Inspection System;
- Bringing all Systems to Current Standards;
- Cluster Systems;
- Centralized System – deemed the only option worthy of further analysis, and

WHEREAS, the Town Board of the Town of Mina was approached by the Village of Sherman, NY regarding the potential to collaborate using the Village’s wastewater facility for Findley Lake, options were assessed by the two communities in 2013 and deemed cost prohibitive, and

WHEREAS, the Town Board of the Town of Mina has been apprised of changes by Chautauqua County in regard to county septic systems including:

- Chautauqua County Board of Health changes to the Sanitary Code effective July 1, 2008 with regard to offset distances, small property lots and minimum separation distances for wells;
- Chautauqua County Board of Health amended the Sanitary Code to Mandate Private Septic System Inspection for properties within 250 feet of the county’s lakes – January 1, 2016;
- Officials from the Chautauqua County Department of Health have reported that mandatory inspections at other lakes are underway;
- Officials from the Chautauqua County Department of Health are awaiting the outcome of the formation of a sewer district in Findley Lake before starting inspections at Findley Lake;
- The impact to many property owners within 250 feet of Findley Lake would require significant upgrades which would be costly to the homeowner, and

WHEREAS, Hill Engineering, Inc., a division of Greenman-Pedersen, Inc., Engineering and Construction Services, competent professional engineers licensed to practice the profession of
engineering within the State of New York, has delivered and the Town of Mina Board has filed an Engineer’s Map, Plan and Report for the Town of Mina, Chautauqua County, New York, Findley Lake Sewer District Formation, dated September 6, 2016 (herein referred to as Map, Plan and Report), and

WHEREAS, the Town Board of the Town of Mina plans to apply for grants and low-interest funding to reduce the capital and operational costs of the project based upon the following:

- New York State Environmental Facilities Corporation Letter for 30 year, 0% financing;
- Hardship Eligibility Determination – September 2014;
- July 2015, the Town Board released a Request for Proposals to nine consulting firms and engaged Municipal Solutions from Canandaigua, NY;
- Per New York State Law, the town is not eligible for grant funding until a sewer district has been formed;
- If a sewer district is formed, the Town of Mina plans to submit a number of grant applications, and

WHEREAS, on January 9, 2017, the Town Board of the Town of Mina adopted an Order calling a public hearing regarding the proposed Findley Lake Sewer District (hereinafter referred to as District) to be held by the Town Board of the Town of Mina at the Town of Mina Town Hall, 2883 North Road in the Town of Mina, County of Chautauqua and State of New York on the 21st day of January, 2017, at 11:00 o’clock AM, and

WHEREAS, a public hearing having taken place at the Town Hall, 2883 North Road in the Town of Mina, County of Chautauqua and State of New York on the 21st day of January, 2017, at 11:00 AM prevailing local time, and

WHEREAS, the Town Board has given due deliberation to the hearing and testimony and allegations presented, and

WHEREAS, that the permission of the State Comptroller is required for the formation of the District under Town Law Section 209-f since the cost of the District to the typical property as stated in the Notice of Hearing is above the average estimated costs to the typical properties or homes for the establishment of similar types of districts as computed by the State Comptroller, and

NOW, on motion of Councilman Luce, seconded by Councilman Wilcox, all members present voting as follows:

Supervisor Brumagin – aye

Councilman Luce – aye
Councilman Watrous – aye

Councilman Wilcox – aye

THEREFORE, IT IS:

FOUND, ORDERED AND DETERMINED, that the Order of Hearing was published, posted and mailed as required by law and as required by the aforementioned January 9, 2017 Order of the Town of Mina Town Board as aforesaid and is otherwise sufficient; and it is

And it is further

RESOLVED AND DETERMINED, that this Order is adopted subject to the permissive referendum in the manner provided by Subdivision Three of Section 209-e of the Town Law, and it is further

RESOLVED AND DETERMINED, that this Order is adopted subject to the permission of the New York State Comptroller as required by Section 209-f of the Town Law, and it is further

RESOLVED AND ORDERED, that the Town Clerk of the Town of Mina shall post and publish the following Notice pursuant to Article 7 of the Town Law:

NOTICE

PLEASE TAKE NOTICE THAT the Town Board of the Town of Mina, on February 20, 2017 adopted a Resolution establishing the Findley Lake Sewer District setting forth the boundaries thereof, determining that the Notice of Public Hearing thereon was published, posted and mailed as required by law, determining that all property and property owners within the District are benefited thereby, determining that all of the property and property owners benefited are included within the limits of the District, and determining that the establishment of the District is in the public interest.

PLEASE TAKE FURTHER NOTICE THAT the aforesaid Order was adopted subject to permissive referendum.
Supervisor Brumagin stated that Orrick Herrington & Sutcliffe LLP was recommended by Attorneys Gregory Yaw and Neil Robinson as well as Municipal Solutions as Bond Counsel. The town board reviewed a proposal letter from Orrick, Herrington & Sutcliffe LLP outlining the engagement and legal services. The fee for a $15,000,000 Grid Note issue to be sold to New York State Environmental Facilities Corporation (NYSEFC) will not exceed $7,750 and for $15,000,000 Bonds sold to NYSEFC will not exceed $16,250. Councilman Wilcox made a motion seconded by Councilman Luce to engage Orrick Herrington & Sutcliffe LLP for bond counsel as outlined in the proposal. Motion passed unanimously.

Supervisor Brumagin stated that the next Town Board meeting will be held March 9, 2017 and if the proposed sewer district goes to a permissive referendum then it would be beneficial to have a public meeting or informational sheet with answers to Frequently Asked Questions (FAQs). The sewerage committee will meet and develop draft answers to the FAQs. The town board will review the FAQs and responses at the March 9th meeting.

The public has 30 days from today (March 22, 2017) to turn in petitions regarding the proposed Findley Lake Sewer District.

Supervisor Brumagin adjourned the Public Hearing at 10:05 am.

Respectfully submitted,

Sherrie R. Tanner

Town Clerk
